26 Permitted activity conditions: sediment

Sediment originating from earthworks must be managed to ensure that after reasonable mixing it does not give rise to any of the following effects on receiving waters:

- any conspicuous change in colour or visual clarity:
- the rendering of fresh water unsuitable for consumption by farm animals:
- any significant adverse effect on aquatic life.

27 Permitted activity conditions: forestry earthworks management plan

- A forestry earthworks management plan is required** for all earthworks that involve more than 500 m² of soil disturbance in any 3-month period.
- A forestry earthworks management plan must—
 - identify the environmental risks associated with the earthworks and provide measures to avoid, remedy, or mitigate the adverse effects of the activity on the environment; and
 - contain the details required by [Schedule 4](#); and
 - be in place at least 20 working days before the earthworks begin; and
 - if the earthworks are required for a salvage operation, be in place 2 days before the earthworks begin.
- The forestry earthworks management plan must be provided to the relevant council on written request. The council may request that the forestry earthworks management plan be provided annually.
- Material amendments to the forestry earthworks management plan must be documented and dated, and the relevant council must be advised that an amendment has been made. The amended plan must be made available to the relevant council on request.
- In subclause (4), **material amendment** means any significant change to the location of forestry roads, forestry tracks, or landings, or changes to the matters required by subclause (2)(a) that would significantly change the methods used to manage environment effects.
- If a forestry earthworks management plan is required under subclause (1), earthworks must be carried out in accordance with the plan.

Regulation 27(2)(b): replaced, on 3 November 2023, by [regulation 19](#) of the Resource Management (National Environmental Standards for Commercial Forestry) Amendment Regulations 2023 (SL 2023/277).
